You get mighty tired of doing the same old things the same old way:

You'll never forget that place where they eternally gave you stewed prunes for breakfast:

There's only one thing that hits you just right, every day in the year:

MECCA!

No Change in Butter Prices, But Market Has Firmer Tone.

Boston, May 31.—A slump in the primary cheese markets, due to a withdrawal of exporters has unsettled the local market and from a condition of decided firmness, the market now has a weak tone, with dealers quoting higher prices than they are prepared to do business at. No change is noted in butter prices, but the market has a firmer tone, for an increasing number of receivers are more inclined to store what stock they have beyond the needs of their regular trade rather than do business for less than the usual margin of profit. Heavy eggs are very short and firm and gathered stock of good quality is moving off easily at well sustained prices.

HOG PRICES EASIER.

Beef Cattle Values Well Sustained at Brighton Market.

Brighton, Mass., May 31.—Hogs were easier, but beef stock values were well sustained, with good demand noted at Brighton yesterday. Arrivals were about the same as last week, but the best stock was keenly called for.

Some choice beef cattle from Farmington, Me., brought 10 cents, this being the top for the day. Tops were quoted at 9½c to 10 cents, with good cattle at 8c to 9 cents and light at 7c to 7½ cents.

Fancy cows and heifers brought 7½c to 8 cents, but this was the extreme and for only a few single animals. Average tops sold at 6½c to 7½c, with good cows at 5½c to 6 cents, ordinary cows at 4½c to 5 cents and canners at 4c to 4½c. Fancy bulls sold at 7½c, the range for tops being 6½c to 7½c, with ordinary bulls at 5½c to 6 cents and bolognas at 4½c to 5 cents. Several choice beef bulls were noted yesterday morning and were quickly taken up by buyers.

Fancy calves sold in small lots as high as 11c to 11½c, but the range for the best bunch lots was 9½c to 10½c, with fair lots at 7c to 9 cents and grassers and drinkers at 5c to 7 cents.

Hogs were easier in sympathy with western markets, the tops for the best lots being 10.10 cents, the range for tops being 9½c to 10.10 cents. Rough lots sold at 9½c to 9c.

Sheep and lambs were in small offering, and prices were well sustained at 5c to 8 cents for sheep and 7c to 10 cents for lambs. The bulk of the best offerings sold at 7c to 8 cents respectively.

Offerings of milk cows were moderate, but the demand was light, and prices were barely sustained. Ordinary milkers were not quotable at over \$300 to \$350, with good milkers at \$400 to \$500, and fancy milkers at \$500 and upward.

SECOND BAND WANTS SLICE

Christopher Columbus Organization Desires to Give 2 of the 16 Concerts

LONG ARGUMENT BY CITY COUNCIL

Lord's Alley People Petition for a Change of Name

Such ponderous subjects as street nomenclature, music by the band and hypodermics, entered into the deliberations of the Barre city council at its regular meeting Monday night. Lord's alley residents, weary of having their thoroughfare so designated, petitioned the council for a change to Mount Vernon place, with the result that a public hearing in the matter will be held in the council chamber on the evening of June 13 at 8 o'clock. The municipal statesmen also legislated concert music for the coming season and made a great deal of music for their own delectation, probably, in discussing the matter of giving the Christopher Columbus band of young musicians a slice of the purse that goes to more mature band men each year.

Much that was vapor hung around the discussion of splitting the \$1,000 appropriation for outdoor music and before the wedge was finally inserted, some were crying for help, others were calling in vain for an injection, while others yet, in dragging the sea of verbosity for the remains of their lost colleagues, found themselves so far from port that a tedious resume of the entire debate was necessary to restore understanding. Prof. P. Gropelli, who nursed the younger band in its infancy and still continues to tutor the youngsters, asked that his organization be permitted to give two of the 16 concerts provided for in a report from the special committee, which recommended that last year's contract with the Barre Citizens' band be renewed.

For reasons which they said had been considered carefully, the members of the mayor's special band committee declined to foster the division plan. But Alderman Rossi's motion, amending the report in such a way as to give the young Italian musicians a pull at the purse strings, was finally carried, and negotiations are to be carried on with both bands.

Among the other callers were O. H. Hale and G. Tomasi. Mr. Hale, who received instructions a month ago to remove a shed near his auction market on North Main street, asked for an extension of time, advancing the explanation that goods sheltered by what he was pleased to call covers instead of sheds, belonged to A, B and C, a circumstance which made it difficult for him to move the property on short notice. The request was not granted as the council seemed to feel that the auctioneer had temporized long enough. The order for removing the sheds was supposed to be enforced a month ago, it was said.

Mr. Tomasi's conference was for other reasons. He explained at length a project which he has in mind for improving his property on Cottage street, expressed a preference for building something besides a fireproof wall as recommended by the building inspector, and asked that he be given a decision. The matter was referred to the aldermanic committee of the whole.

Committee reports were received and accepted as follows: Fire committee, recommended that W. A. Lane and James Hastings be permitted to install gasoline tanks and pumps with certain restrictions; recommended that A. H. Buzzell be permitted to erect a garage on Summer street with the reservation that he be required to build a fireproof wall whenever the council shall see fit to make such a move compulsory; committee of the whole, recommended that the Church street schoolhouse be retained in the city's possession until it may be used for a public purpose; street committee, that A. Tomasi's request for an extension of his block to the building line be not granted; that Merchant street improvements be deferred, as a street grade was established in 1902; fire committee, that larger mains and more hydrants be established in Batchelder and Willey street meadows as soon as a report is received from the New England Insurance Exchange; street committee, that a sidewalk be built to the end of the present asphalt walk in the East street-East street neighborhood on the north side of the thoroughfare, that the other side be filled in with ashes and that the wall improvements petitioned for be deferred.

Plumbers are to be inhibited from crossing gas pipes and electric wires hereafter as the result of a stand taken by the council on a violation of the wiring rules as noted by Inspector David Gilbertson in the basement of a North Main street saloon. Permits to wire were

The June 13 hearing was fixed after a considerable discussion of the procedure usually followed in such cases.
